WORKWEAR RENTAL

You can rely on

Your workwear rental service should provide you with garments that are comfortable, robust and compliant with all the appropriate safety standards. But at CLEAN, we believe that should be the bare minimum.

That's why we don't stop at offering a huge range of off-the-shelf, UK-based workwear garments. Our fully serviceable solutions include options for custom garments, alterations, repairs and replacements, as well as our high-quality and hygienic laundering processes.

Whether you need garments for 5 or 5,000 employees, choosing CLEAN means you'll receive excellent service throughout your rental contract, tailored to the needs of your business.

At a glance – why CLEAN?

- Reliable garment collection and delivery
- Certified protective workwear
- Cost-effective rental model
- Fully managed service for repairs and replacements
- Hygienic, thermally disinfected laundry
- Hazard Analysis and Critical Control Point (HACCP) laundering
- Unique wash cycles for specific garments
- Full barcode tracking and service reporting

CLEAN
LINEN & WORKWEAR

A consultative approach to workwear rental

CLEAN is more than a provider; we're a partner. We work with you to ensure your workwear needs are fully understood, completing a full risk assessment of your working environment to get to grips with your day-to-day requirements.

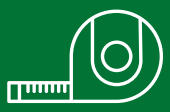
We'll make recommendations if required for you and provide a fully costed, tailored solution for your contract.

Getting you up and running

Our setup process is quick and easy, so you'll be ready to go in no time.

1. MEASURING

Our consultant will measure your employees to ensure a comfortable, protective fit.



2. SCHEDULING

We'll let you know when your garments are ordered and expected for delivery.

3. GARMENT DELIVERY

On your agreed start date, we'll issue your garments and install any extra equipment.

4. SERVICE

Your contract begins - we collect, launder and deliver your garments as scheduled.

HOW DOES IT WORK?

Our managed laundry service

Our process is designed to make life easier for you, ensuring that you have the garments you need, when you need them.

Your contract includes TWO simultaneous cycles of the below - so while we're collecting your used garments for washing, we drop off cleaned workwear that's ready to go.

The CLEAN approach keeps things running smoothly

CLEAN
LINEN & WORKWEAR

MORE WAYS TO SUPPORT YOUR BUSINESS

Extra services we offer

Logos and embroidering

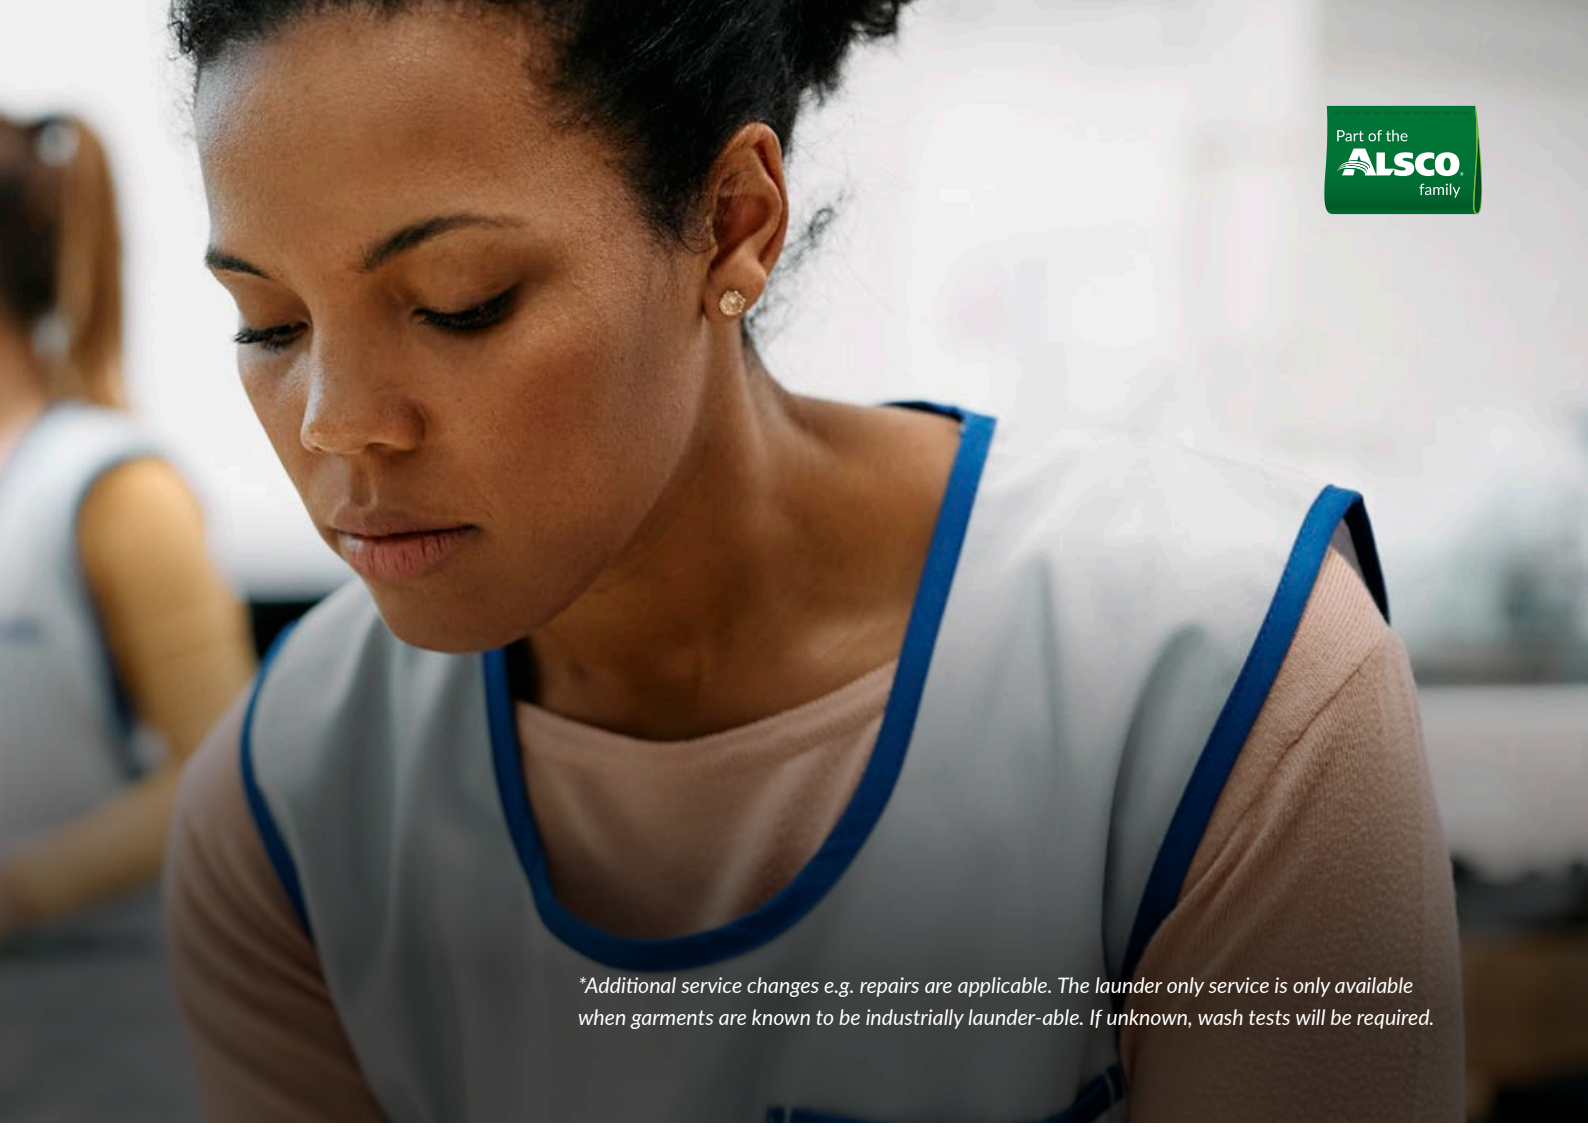
Most of our garments can be customised to your specification, whether you're looking for a company logo, department name, job title or name tag.

Logos can either be heat sealed or embroidered, and they can be fixed almost anywhere on the garment - from the sleeves and torso to the pockets.

Locker valet service

Save time, money, space and hassle with our personal locker valet service.

We eliminate the risk of theft and damage by ensuring that garments are organised in clean, safe lockers whenever they're needed. Our drivers deliver personal garments to each wearer's locker, so your employees are never without.



**Additional service changes e.g. repairs are applicable. The launder only service is only available when garments are known to be industrially launder-able. If unknown, wash tests will be required.*

Floor protection mats service

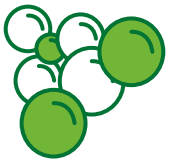
From keeping staff and customers safe, to maintaining a clean working environment, floor protection and dust control mats are an important service for any business.

That's why we offer regular collection, cleaning and delivery for floor mats, ensuring that your business always puts its best foot forward.

Washroom and hygiene services

Make sure your facilities are well-maintained and stocked up with our washroom services.

Our range of equipment and consumables includes roller towels, hand dryers, soap dispensers, sanitising systems and more, offering attractive and energy efficient functions that are suited to your premises.



Use your own workwear? Launder only service*

Prefer to use your own workwear, but need the services of a reliable laundry?

Our 'Launder Only' service may be for you, allowing you to benefit from a laundry service having bought your own garments. Experience our expert cleaning, quality control and delivery services without renting.

Practical & Functional Uniforms

We provide comfortable, durable and practical garments designed to keep your kitchen team looking smart while supporting hygiene, safety and everyday performance.

Ideal for kitchen porters and back-of-house teams, our garments are made for demanding environments. From washing pots, pans and crockery to operating dishwashers, cleaning kitchen surfaces, managing waste and recycling, handling deliveries and supporting basic food preparation, they offer the comfort and practicality needed throughout the working day.

SAFE, COMFORTABLE FOOD WORKWEAR

Food Processing

In a food processing environment, workwear is required to protect not only your employees, but also the products and environment they are working in.

We offer garments suitable for low, medium and high-risk food production environments, combining function, durability and comfort with compliance. We launder all food processing workwear to meet Hazard Analysis and Critical Control Points (HACCP) certification and comply with BRC Global Standards, so there are no concerns over hygiene.

LOCKER VALET SERVICE FOR WORKWEAR

Lockers & Accessories

Save time, money, space and hassle with our locker valet service. This service makes it easy to organise and distribute workwear garments to your employees. Our team of delivery drivers and service representatives personally hand delivers garments to individual lockers assigned to each wearer for added convenience and security.

Many of our customers prefer this because it eliminates the problems of theft, damage and complicated administration sometimes involved with providing workwear garments to your employees. It also means clean, safe workwear is available 24 hours a day.

It's effortless for your employees and wearers to find and wear clean uniforms as they only need to take them out of the lockers and put them on. Once their workday is over, they can deposit the uniforms in garment collectors that are ready for collection, and our team will handle the rest.

Garment Collector & Dispenser

Garment Collector: Size H x W x D mm

CLEANER, SAFER FLOORS EVERY DAY

Dirt, dust, spills and moisture can quickly become more than a cleaning issue.

CLEAN floor protection mats help capture contamination at the source, protecting floors from everyday dirt and moisture brought in through entrances and busy areas.

PROTECT FLOORS

Trap dirt and moisture before they spread.

IMPROVE SAFETY

Help reduce slip risks by controlling moisture.

REDUCE CLEANING

Stop dirt at the entrance rather than allowing it to travel further.

CREATE A BETTER IMPRESSION

Keep entrances clean and professional.

What are our mats made of?

At CLEAN, we believe sustainability and performance should work together.

Our matting range includes products made with ECONYL® regenerated nylon and recycled PET, giving waste materials a new life as high-performance matting.

RECYCLED PET

Post-consumer PET bottles and containers are cleaned, processed and transformed into yarn for high-performance matting.

ECONYL®

Made from discarded Nylon 6 materials, including fishing nets and other nylon waste, regenerated into high-quality yarn.

WHY MATERIALS MATTER

Recycled fibres

Give waste materials a new life.

High-twist fibres

Help trap dirt within the mat.

Heat-set yarns

Help maintain structure and performance.

Durable rubber backing

Provides stability and secure positioning.

A measurable difference. CO_2

4.25M+ kg SAVED*

ECONYL® regenerated nylon: up to 90% lower global warming impact*.

A MAT SERVICE THAT WORKS
HOW YOU NEED IT TO

At CLEAN, we believe sustainability and performance should work together.

Larger mats can be difficult to handle and transport, while cleaning them thoroughly in-house can be impractical.

CLEAN takes care of the laundering for you, with scheduled servicing that keeps clean mats in place and used mats moving through our professional laundry.

Choose from **two service options**, with fortnightly servicing as standard and weekly or monthly frequencies available.

ONE MANAGED SERVICE.
LONGER-LASTING MAT PERFORMANCE.

A SERVICE SCHEDULE THAT WORKS FOR YOUR BUSINESS.

01 DROP, SWAP & LAUNDER

Simple mat servicing with minimal disruption.

Place your used mats at an agreed collection point and we'll collect them on schedule, replacing them with freshly laundered mats.

Drop
You drop your used mats at the agreed collection point.

Swap
We collect the used mats and replace them with freshly laundered mats.

Launder
We professionally launder the used mats, ready for their next service.

02 LIFT, LAY & LAUNDER

Complete on-site mat collection and servicing, handled by CLEAN.

Our service operative visits your site, lifts the used mats and replaces them with freshly laundered mats, taking the used mats away for professional laundering.

Lift
We lift your used mats from throughout your business, collecting them directly from where they're in use.

Lay
We replace them with freshly laundered mats, laid in place ready to use.

Launder
We take the used mats away for professional laundering, ready for their next service.

CLEAN
LINEN & WORKWEAR

Everyday Mats

A durable indoor mat that captures dirt and moisture, providing reliable floor protection in busy commercial environments.

Designed for entrances, receptions and busy walkways, its coarse fibres remove dirt and moisture from footwear, helping keep floors cleaner and safer. As part of our fully managed rental service, mats are regularly collected, professionally laundered and returned ready to perform.

Style Classic Standard
Pile ECONYL® Regenerated BCF Polyamide, twisted & heat-set multifilament
Backing 100% nitrile rubber with 34% post-industrial recycled content in the polymer – phthalate free
Border 20mm Width, 2.5mm Thickness

Sizes

- 85 x 150cm
- 115 x180cm
- 85 x 300cm

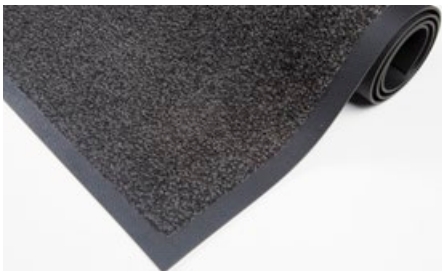
Bespoke sizes available
(max width: 200cm, length: 550cm)

Static control

Antistatic behaviour: Approx 1011 ohms (ISO 10965) – Personal Charging: 2kV antistatic (ISO6356)

Features

- 12mm Micromix ECONYL® regenerated nylon pile
- Reinforced rubber borders for added durability
- 100% nitrile rubber backing



Performa Mats

A premium indoor entrance mat with a deeper pile for superior moisture absorption and reliable floor protection in high-traffic areas.

Designed for busy entrances, receptions and walkways, it absorbs up to 2.5 times more moisture than a standard entrance mat, helping keep floors cleaner, drier and more presentable. As part of our fully managed rental service, mats are regularly collected, professionally laundered and returned ready to perform.

Style Classic Micromix
Pile ECONYL® Regenerated Nylon Micromix fibres, twisted & heat-set BCF polyamide
