

Coolmax Chef Jacket

This Coolmax chef jacket available in both short and long sleeve variants is designed for maximum comfort.

The Coolmax back panel is designed to keep the wearer cool by helping air circulate and allowing body heat to escape.

A high quality polycotton blend is used to manufacture the rest of the jacket, making this chef jacket a quality option for people working in particularly hot environments.

Ideal for chef's that demand a uniform that stands up to the rigours of the kitchen while helping them keep cool.
