

## Paintroom Single Layer Coverall

The Paintroom Single Layer Coverall is a lightweight, comfortable and protective garment designed for paint and finishing environments.

Made from durable polyester with anti static carbon yarn, it keeps you safe while helping reduce static. The coverall features a zipped front, a hood, breathable mesh at the back and an adjustable waist for a comfortable fit.

Practical pockets and elasticated cuffs and ankles make it easy to move and work efficiently, keeping you covered and comfortable all day.
